One of the bulbs needs replacement if not calibration. If you are able to take apart, you can test which one is out. If you can't take apart and it's under warranty, get it replaced.

I'm getting ready to troubleshoot a Samsung DLP HLT5075s. The picture is quite dark, it is hard to see during the daytime or if there is any light turned on.

Any idea why I have a dark picture on my 65 inch Mitsubishi DLP TV? Could this be the lamp? Lamp indicator is not working. Any suggestions? Thanks.
